COLLECTION 2022

STOCK EDITION

2022 STOCK COLLECTION

"Our team created a range of garden furniture with all the possibilities you need for your best outdoor experience."

SUSTAINABLE AND RESPONSIBLE

"Creating the LIFE Outdoor Living collection, the purely natural product is leading for the design process."

The teak furniture are partly made of recycled teak, guaranteeing the sustainability of the wood itself, the workers and the plantation."

LIFE

OUTDOOR LIVING

The mark of
responsible forestry

RECYCLABLE

 It is our mission to make your garden feel like an extension of your home interior. With our wide range of outdoor cushions and our newest addition of Soltex cushions we believe this mission will be accomplished. The 2022 LIFE collection will take your leisure experience to a higher level, with reliable garden furniture designed in the Netherlands.

Due to our own supervision, based on 25 years of experience, the production of the entire collection is tested on durability, quality and functionality to create the best commercial collection for 2022.

The experience of nature, people and their social environment form the basis of our timeless designs. The collection is partly made of recycled teak: this is a purely natural product, meaning the wood is given a second life. The natural finished teak furniture is made from 100% Indonesian Legal Wood. It is SVLK certified, meaning that the full process in manufacturing is registered and monitored.

Please note that all products with FSC® logo are FSC® 100%: NC-COC-058170.

 Es ist unsere Mission, Ihrem Garten das Gefühl zu geben, eine Erweiterung Ihres Interieurs zu sein. Mit unserer großen Auswahl an Outdoor-Kissen und unserer neuesten Ergänzung von Soltex Kissen glauben wir, dass diese Mission erfüllt wird. Die LIFE-Kollektion 2022 bringt Ihr Freizeiterlebnis auf ein höheres Niveau, mit zuverlässigen Gartenmöbeln, die in den Niederlanden entworfen wurden.

Aufgrund unserer eigenen Aufsicht, basierend auf 25 Jahren Erfahrung, wird die Produktion der gesamten Kollektion auf Haltbarkeit, Qualität und Funktionalität getestet, um die beste kommerzielle Kollektion für 2022 zu schaffen.

Die Erfahrungen mit der Natur, den Menschen und ihrem sozialen Umfeld bilden die Grundlage für unsere zeitlosen Entwürfe. Die Kollektion besteht zum Teil aus recyceltem Teakholz: dies ist ein reines Naturprodukt, was bedeutet, dass das Holz ein zweites Leben erhält. Die natürlich verarbeiteten Teakholzmöbel werden zu 100% aus indonesischem Legal Wood hergestellt. Es ist SVLK zertifiziert, was bedeutet, dass der gesamte Prozess in der Herstellung registriert und überwacht wird.

Bitte beachten Sie, dass alle Produkte mit FSC® Logo sind FSC® 100%: NC-COC-058170.

 Notre mission est de faire en sorte que votre jardin ressemble à une extension de l'intérieur de votre maison. Avec notre large gamme de coussins extérieurs et nos nouveaux coussins Soltex, nous croyons que cette mission sera accomplie. La collection LIFE 2022 fera passer votre expérience de loisirs à un niveau supérieur, avec des meubles de jardin fiables conçus aux Pays-Bas.

Grâce à notre propre supervision, basée sur 25 ans d'expérience, la production de l'ensemble de la collection est testée sur la durabilité, la qualité et la fonctionnalité pour créer la meilleure collection commerciale pour 2022.

L'expérience de la nature, des gens et de leur environnement social forment la base de nos conceptions intemporelles. La collection est en partie faite de teck recyclé: un produit purement naturel. Le mobilier en teck naturel fini est fabriqué à partir de bois légal 100% indonésien. Il est certifié SVLK, ce qui signifie que le processus complet de fabrication est enregistré et surveillé.

Veuillez noter que tous les produits avec le logo FSC® sont FSC® 100%: NC-COC-058170.

LIFE works with its own models and designs. The designs are based on creating userfriendly furniture with the best quality possible.

The new tête-à-tête design of the Bondi relax chair is a comfortable luxury item in your garden as it is functional. The connected armrests in-between the two seats create a small table as well.

TEXAS BAR

CHARACTERISTICS TEAK WOOD

The collection of LIFE Outdoor Living is mostly made of recycled teak; this is a purely natural product, meaning the wood is given a second life. Because this is a recycled natural product, every individual table has its own structure and look. Disparity in measurements and the structure are properties of the wood; this means that every product is unique. Recycled teak has a natural appearance and develops a beautiful silver grey shade. Scratches, dents, cracks, knots, filling or other damage is inherent in recycled teak. Normal use of the product will result in small cracks (hairline cracks) and openings appearing in the wood; this all does not detract from the quality or the life span of the product, but to the contrary is characteristic of the charm of this product.

The natural finished teak furniture is made from 100% Indonesian Legal Wood. It is SVLK certified, meaning that the full process in manufacturing is registered and monitored. Guaranteeing the sustainability of the wood itself, the workers and the plantation.

CUSHIONS

CUSHIONS

ALL-WEATHER CUSHIONS

An All -Weather cushion (developed by LIFE) is a cushion that can be left outdoors throughout the entire season. These cushions are produced from high-quality synthetic products. When it rains the water goes through the cushion cover and through the inner water repellent foam. By pressing down on the cushion or placing the cushions on their sides, the cushions will be dry in a relatively short period of time.

CARBON

SOLTEX CUSHIONS

Soltex cushions feels more natural and a little softer compared to the All-Weather cushions. The cushions are strong and easy to maintain. Cushions can be left outside the entire spring and summer season but are best to be stored inside the rest of the year.

MIST GREY

COMFORMA CUSHIONS

These cushions can remain outdoors for the entire season. The fabric feels like an interior fabric, but has the properties which allow it to remain outdoors in All-Weather conditions. These cushions have a very soft touch and are comfortable to sit on. One of the best ways of ensuring that your Comforma continues to look good is clean them regularly. There is no need to add extra layers of protection.

TABLE TOPS

ROBUST & GREY TEAK

All our LIFE teak products are made from 100% Indonesian Legal wood (SVLK) or are FSC® certified. Look for our FSC® certified products indicated by the promotional logo indicating responsible forestry. With SVLK Certified wood, the full process in manufacturing is registered and monitored, guaranteeing the sustainability of the wood itself and the plantation. The teak wood is strong and durable due to natural oils.

ROBUST TEAK

GREY TEAK

CERAMIC

The unique ceramic table tops have a remarkable natural imitation print on it. Known from flooring, ceramic is at the moment the strongest material used for table tops. Ceramic contains minerals that are compressed under high pressure and temperature to create the perfect ceramic structure. It has an extremely high scratch threshold and easy in maintenance.

CONCRETE LOOK

MATERIALS AND MAINTENANCE

RECOMMENDED MAINTENANCE PRODUCTS

LIFE supplies a wide range of products consisting of multiple materials. In this overview we describe how to maintain your garden furniture product for an optimal lifespan. For the use of our LIFE Outdoor Living treatment products we recommend to read the instructions on the back of the product carefully before applying.

Although the LIFE garden furniture is designed and manufactured for outdoor use it is important to maintain and clean the furniture regularly and protect it as much as possible against the weather influences. These factors will effect the life span of the furniture. Just compare it to a car, you can leave it outside, but you have to clean it once in a while to keep it in good shape and if possible store it in a garage.

TEAK WOOD

“Protect your garden furniture against the weather elements ”

The LIFE teak products are made from 100% Indonesian Legal wood (SVLK) or are FSC® certified. Look for our FSC® certified products indicated by the promotional logo indicating responsible forestry. With SVLK Certified wood, the full process of manufacturing is registered and monitored, guaranteeing the sustainability of the wood itself and the plantation. Scratches, dents, cracks, knots, is inherent to the natural product. Normal use of the product will result in small cracks (hairline cracks) appearing in the wood: this all does not detract from the quality or the life span of the table. This is part of the characteristic.

TEAK WOOD - ROBUST

Before using any maintenance product on teak you need to make sure the surface is clean and dry. You can use our special LIFE Outdoor Living teak cleaner. Do not use any aggressive detergents or high pressure cleaner. To clean more easily you can use the aluminium sponge. It is important, when using this sponge, to move directionally along the grain. To protect your teak wood product against stains and marks, we recommend to maintain the product at least three times a year.

Weather influences will make the robust teak wood slowly turn grey. If you want to prevent this, you may use the “LIFE Outdoor Living Teak Protector”. By using this product you will get a warm brown colour. Always test on a small surface before applying it to the entire product.

To protect against the weather conditions and dirt even more you can use the “LIFE Outdoor Living – Teak shield”. This product should be used after cleaning or using the teak protector.

Note: As teak wood is a natural product it has to ‘breathe’. Do not cover teak with a protection cover to prevent moulding.

TEAK SHIELD

TEAK PROTECTOR

TEAK CLEANER

ALUMINIUM SPONGE

TEAK WOOD – GREY

The grey teak garden furniture products have a grey wash layer over the natural teak wood. Over its lifespan the teak will lose its colour gradually, returning to the original colour of the wood. When you would like to keep the grey colour as long as possible you may use the “LIFE Outdoor Living - Teak Colour Grey”.

Like the robust teak wood, before using any product for maintenance you need to make sure the surface is clean and dry. You can use the special “LIFE Outdoor Living - Teak cleaner. Do not use any aggressive detergents or high pressure cleaner. To clean more easily you may use the aluminium sponge. It is important, when using this sponge, to move in the direction along the grain. At least three treatments a year will maintain your product optimally.

If the product is going to show its original wood colour and you would like to re-apply the factory grey wash layer you can use the special “LIFE Outdoor Living - Teak Colour Grey”.

To protect against the weather conditions even more you can use the “LIFE Outdoor Living – Teak shield”. This product should be used after cleaning or using the teak colour grey.

TEAK COLOUR GREY

SPRAYSTONE

“Protect your spraystone against stains”

A sleek natural look. Crushed pieces of stone sprayed on a glass plate. This gives you a beautiful natural look. Spraystone is high in quality and very strong.

To clean spraystone, use the powerful cleaner and stain remover that quickly and profoundly removes dirt, grease and other stains from the surface.

After cleaning, treat the Spraystone with the protector. The protector makes Spraystone water and dirt repellent and helps to prevent stains.

It gives a long-lasting protection against dirt, grease, olive oil, coffee etc. It is an invisible impregnating spray that preserves its natural appearance.

SPRAYSTONE PROTECTOR

SPRAYSTONE CLEANER

POLYWOOD

“The look of real wood, but low maintenance”

The LIFE polywood products are difficult to distinguish from real wood products. It is an artificial product and you will benefit from its very low maintenance. It is lightweight and splintering will not occur. Be aware for glass work standing on polywood for a longer period as it can work as a magnifying glass to the sun leaving marks.

You can maintain the polywood using the “LIFE Outdoor Living - Polywood cleaner” and using the protector you create a protective layer against stains and marks.

POLYWOOD CLEANER

POLYWOOD PROTECTOR

ALUMINIUM

“A light weather proof material which does not rust”

LIFE Outdoor Living has a wide range of aluminium furniture. Our aluminium furniture has the advantage of being light and strong. The high quality powder coating ensures that LIFE aluminium products can endure any type of climate, as it is UV proof and colour fast. If damage on the paint has occurred during use it is easily retouch. For cleaning and extra protection, you can use the “LIFE Outdoor Living - Aluminium cleaner and protector”.

ALUMINIUM CLEANER AND PROTECTOR

CERAMIC

“A very strong, scratch proof material which is very easy to maintain”

LIFE its unique ceramic table tops have a remarkable strength. Ceramic tops have 2-3 layers of ceramic material on top of a shatterproof glass plate (about 8mm thick). Ceramic is one of the hardest materials used in garden furniture. It has an extremely high scratch threshold, it is UV proof, colour fast and it is easy to maintain. For cleaning and protection you can use the “LIFE Outdoor Living - Ceramic cleaner and protector”.

CERAMIC CLEANER AND PROTECTOR

CUSHIONS

LIFE Outdoor Living furniture comes with very thick and comfortable cushions. A cushion (developed by LIFE) is a cushion that can be left outdoors throughout the entire season. These cushions are produced from high-quality synthetic products; when it rains the water goes through the cushion cover and through the inner water repellent foam. By pressing down on the cushion or placing the cushions on their sides, the cushions will be dry in a relatively short period of time.

ALL-WEATHER CUSHIONS

Protect your All-Weather cushions using the “LIFE Outdoor Living – Textilene and wicker cleaner”.

The cover of the all-weather cushions is made out of textilene and the fibre anti-bacterial material provides long colour fastness. Water can be wiped off easily and wringes through the cushion. This cushion can be left outside the entire season and do not need any protective layer. Although it will not need an extra protective layer, you do need to clean the cushion regularly to keep its All-Weather abilities and prevent moulds.

Cleaning All-Weather cushions

To clean the inner cushions, you remove the cushion cover and clean the inner cushion using a mild

detergent. You can clean the cushion cover with “LIFE Outdoor Living Textilene and Wicker Cleaner”. This is a non-foaming cleaner for open-woven fabrics and wicker. The outer cover can also be cleaned at 30 degrees in the washing machine, with a small amount of laundry detergent. We advise to wash 1 cover at a time.

TEXTILENE AND WICKER
CLEANER

SOLTEX CUSHIONS

Sit comfortably on our Soltex cushions. This cushion combines a polyester fibre with a special softer outdoor thread. Bringing both worlds, interior and exterior, together, these cushions are even softer to sit on than the all-weather variant. In contrary to the All -weather cushions you do need some extra maintenance for these cushions by using an extra protective layer using the “LIFE Outdoor Living – Soltex protector”. Although it can withstand rain, we recommend to store these cushions inside with rainier periods.

Cleaning is just as easy using the “LIFE Outdoor Living – Soltex cleaner”.

SOLTEX CLEANER

SOLTEX PROTECTOR

COMFORMA CUSHIONS

These cushions can remain outdoors for the entire season. The fabric feels like an interior fabric, but has the properties which allow it to remain outdoors in All-weather conditions. These cushions have a very soft touch and are comfortable to sit on. One of the best ways of ensuring that your cushions continue to look good, is clean them regularly. There is no need to add extra layers of protection as the fabric used in the cushion has already been provided these characteristics during the production process.

GUARANTEE

LIFE GUARANTEE

LIFE Outdoor Living has a fair warranty policy on all its products. All our products are made with care and high quality materials. In addition to our warranty we also have a well-trained after sales team who assist our dealer network to ensure that you can enjoy your LIFE Outdoor Living purchase for many years to come. We have tried to convey the colours and structures pictured in this brochure as accurately as possible, but slight differences are possible. Ask your contact person for the terms and conditions.

PROTECTIONS COVERS

Temperature changes make condensation inevitable. Our furniture covers, made from 100% ripstop polyester, features a breathable membrane which transports condensation outwards while simultaneously prevent dust and dirt from getting in.

The other advantages of ripstop polyester are the favourable strength-to-weight ratio combined with the special weaving process which prevents tears.

For convenience and security we have added a number of buckles to each protection cover. This makes it easier to secure the protection cover to your furniture and guarantees optimal protection from the elements. Combined with the warranty we offer on our protection covers you can be sure that your outdoor furniture is optimally protected.

To distinguish right from left: When seated and the armrest is on your left side, the side is called left.
